

Continuity of Learning and COVID-19 Response Plan (“Plan”) Application Template

As a result of COVID-19 and the closing of school buildings for the 2019-2020 School Year, school districts must submit a Continuity of Learning and COVID-19 Response Plan (“Plan”) in order to continue to receive state aid for operations. Although schools are closed and not providing in-person instruction, teaching and learning must continue. Michigan educators have been called to provide our students with continued learning.

There are varied states of readiness to provide continuity in learning among districts. Even within districts of multiple school sites, there are varied states of readiness. It is expected that schools will provide instruction at a distance using a variety of methods that meet local needs, including printed materials, phone contact, email, virtual learning, or a combination to meet student needs. We should avoid assuming that continuity in learning can only occur through online means.

While many educators have been providing distance learning opportunities, the Governor’s Executive Order ([EO 2020-35](#)) requires all schools to begin providing learning opportunities for all students no later than April 28, 2020. Districts who are able to begin their plans earlier are encouraged to do so.

Each District shall submit a single completed Assurance Document, Budget Outline, and Continuity of Learning Plan to its Intermediate School District. Each Public-School Academy shall submit a completed Assurance Document, Budget Outline, and Continuity of Learning Plan to its Authorizer. A single Application should be filed for the district rather than multiple applications for individual schools within a district. The following items are required for the application, which may be submitted beginning April 8, 2020, through Epicenter:

1. Assurances Document
2. Continuity of Learning Plan
3. Budget Outline

Continuity of Learning and COVID-19 Response Plan (“Plan”) Guiding Principles

As Districts and Public-School Academies complete the Assurances and Continuity of Learning Plans, they should consider utilizing the following principles to guide their work:

Keep Students at the Center

Intentional outreach to continue building relationships and maintain connections. Help students feel safe and valued. At minimum, plan to do the following:

- **Plan for Student Learning:** Build on each student’s strengths, interests, and needs and use this knowledge to positively affect learning.
- **Develop a Weekly Plan and Schedule:** Offer routines and structures for consistency and for the balancing of think time, work time, and play time for health and well-being.
- **Contact Families:** Partner to support student learning through ongoing communication and collaboration. This will not look the same for every student and family—safety remains the priority. Provide translations as necessary.

Design Learning for Equity and Access

Plan and deliver content in multiple ways so all students can access learning.

- **Teach Content:** Set goals using knowledge of each student, content area standards, and of Michigan Merit Curriculum.
- **Deliver Flexible Instruction:** Consider how to deliver content depending on tools and resources accessible to each student.
Alternative modes of instruction may include use of online learning, telephone communications, email, virtual instruction, videos, slideshows, project-based learning, use of instructional packets, or a combination to meet diverse student needs.
- **Engage Families:** Communicate with families about engagement strategies to support students as they access the learning. Families are critical partners. Provide translations as necessary.

Assess Student Learning

Manage and monitor student learning and plan what’s next for learning including the potential need for summer and supplemental learning.

- **Check Student Learning:** Use a variety of strategies to monitor, assess, and provide feedback to students about their learning.
- **Make Instructional Adjustments:** Use formative assessment results to guide educators’ reflection on effectiveness of instruction and to determine next steps for student learning.
- **Engage Families:** Communicate with families about assessment results in order to inform next steps and the potential for supplemental summer learning. Provide translations as necessary.

Continuity of Learning and COVID-19 Response Plan (“Plan”)

The goal of a Continuity of Learning Plan and COVID-19 Response Plan is to ensure that each District or Public-School Academy is providing, to the best of its ability, each student with alternative modes of instruction to help them stay on pace in their learning. This application recognizes that there is no “one-size-fits-all” solution; multiple means of engaging students and supporting families may be necessary that may vary by grade level, school building, or student population served.

For the purposes of the Plan, “district” refers to school districts and public-school academies.

In accordance with Executive Order 2020-35 a Plan must include all of the following parts:

1. Please describe the methods the district will use to provide alternative modes of instruction other than in-person instruction and a summary of materials each pupil and the pupil’s parents or guardians will need to access meaningfully the alternative modes of instruction included in the Plan. If the Plan relies on electronic instruction, the Plan must ensure to the extent feasible that pupils have access to a connected device capable of accessing the electronic instruction and must not penalize a pupil for the pupil’s inability to fully participate.

“Alternative modes of instruction” means modes of pupil instruction, other than in-person instruction, that may include, without limitation, partnerships with other districts or intermediate districts or community colleges or institutions of higher education, use of vendors, use of online learning, telephone communications, email, virtual instruction, videos, slideshows, project-based learning, use of instructional packets, or a hybrid of multiple modes of learning that still promote recommended practices for social distancing to mitigate the spread of COVID-CD.

District/ PSA Response:

The district plans to use a hybrid model of instruction using hard copy instructional packets and online learning platforms. For those students that have internet access, but don't have a device, devices will be made available. Students without internet access will have access to instructional materials through a weekly instructional packet. All students will need access to
--

materials such as paper, pencils, and crayons, which will be made available to families that don't have them. All students will have access to grade-level/course textbooks as needed to complete their work.

Charlevoix Montessori Academy for the Arts will continue to follow curriculum and standards. High School students will follow the Michigan Merit Curriculum.

Charlevoix Montessori Academy for the Arts will address students with 504 plans and IEPs with the special education teacher and teacher assistant meeting two to three times weekly online through Zoom or by phone calls. The students will be supported with the special education teacher and teacher assistant with the needs that are in their individual 504 plans and IEPs; in addition, the teachers will monitor and address social and or emotional needs that may arise.

2. Please describe the methods the district will use to keep pupils at the center of educational activities, including outreach to continue building relationships and maintain connections, and to help pupils feel safe and valued.

District/ PSA Response:

Teachers will be expected to contact every student at least twice during the week. This may be done through the use of technology (for those that have access) such as Zoom or other form of virtual meeting or through twice weekly phone calls.

For students with technology access teachers will also make sure to communicate multiple times each week through the instructional platform (Google Classroom, Seesaw, Schoology, Moodle, etc.), with an emphasis on continuing to build relationships and maintain connections. If students do not have access to technology, teachers will include weekly notes to students in their instructional packet that focus on building relationships and maintaining connections. We will encourage relationships between students by having students write letters to classmates and returning them with their weekly instructional packet. Those letters will be mailed to students by the school.

3. Please describe the district's plans to deliver content in multiple ways so that all pupils can access learning.

District/ PSA Response:

For those students without technology, the main mode of delivery will be through hard copy instructional packets. This will be supplemented with phone conferencing to support instruction. For students with technology content will be delivered through the online platform, email, and other social media sites (Facebook, Remind, etc.). Teachers will be accessible synchronous instruction multiple times per week and asynchronous instruction through pre-made videos multiple times per week. Translations will be available if necessary.

4. Please describe the district's plans to manage and monitor learning by pupils.

District/ PSA Response:

For students without technology access, learning packets will be collected each week. Teachers will review the learning packet and provide feedback to the student during their weekly phone call, virtual meeting, or email. Learning packets with written feedback will be returned to the student the next week. Feedback from the teacher will include differentiated work as needed along with examples to support student learning. An example of this may be providing a student that is struggling with multiplication practice and several written examples with the steps. A phone call would also be used as a follow-up if needed. Packets may be mailed. For students with technology, teachers will monitor student access and assignment completion daily within the instructional platform. Teachers will provide feedback to students on assignments through the instructional platform as they are completed (or daily). Teachers will differentiate instruction within the platform to meet each student's needs.

Charlevoix Montessori Academy for the Arts staff will provide feedback with parents on students' progress. Parents will be notified if additional support will be needed to ensure that students are ready for the next grade level. For students who are not at grade level or behind at the conclusion of the school year, summer school will be explored. Summer school will be an online format or paper packets

5. Please attach a budget outline estimating additional expenditures associated with the Plan and sources of revenue to pay for those expenditures.

for the Arts sent out schoolwork via packets and Google Classroom. While the school has been shut, staff have been communicating with parents and staff; in addition, students were continuing to finish their work either by paper or online.

Charlevoix Montessori Academy for the Arts determined April 20th as a date to officially start to ensure that staff, students, and families are familiar with some of the new online software that will be used by those with internet access. District/ PSA Response:

The district will survey all parents to determine their current mental health needs. Based on those results from the teacher interactions with students; the Principal will reach out to individual students and families to determine what they may need. The Principal will help connect the family to outside agencies to help meet their needs. While teachers are making weekly phone calls they will monitor and assess the needs of students and families. If a need is presented the teacher will elevate that need to the principal or behavior specialist to make the necessary follow-up. The principal will hold weekly meetings with teachers to identify any additional students or families in need.

Char Em ISD and BASES has notified the school that they are available if any students are experiencing any mental health issues.
